Career Objective

Detail-oriented Computer Science undergraduate with strong fundamentals in Data Structures, OOPs, DBMS, and Web Development. Seeking a Software Engineering / Full Stack / Front-end Internship to apply problem-solving skills, build scalable applications, and gain real-world industry experience.

Education

Maharaj Vijayaram Gajapathi Raj College of Engineering , Vizianagaram, Andhra Pradesh	2024-2028
B. Tech in Computer Science and Information Technology	CGPA:8.95
Sri Chaitanya Junior College , Srikakulam, Andhra Pradesh	2022-2024
Class XII	Percentage:95.8%
St. Paul's High School , Srikakulam, Andhra Pradesh	2021-2022
Class X	Percentage:86.3%

Technical Skills

Programming Languages: C, Python, C++

Core Concepts: Data Structures and Algorithms, OOPs, DBMS, Operating Systems (Basics) Developer

Tools: VS Code, GitHub

Projects

URL Detection

- Developed a full-stack web application to detect potentially spam or malicious URLs, emails, and messages using AI-based analysis.
- Built a responsive and modern UI using React, Next.js, Tailwind CSS, and ShadCN UI.

Online OP system

- Developed a web-based OP system that notifies patients in real time when doctors are delayed, improving transparency and patient satisfaction.
- Used Next.js, React, TypeScript, and Firebase to build a scalable full-stack solution.
- Improved patient experience by enhancing transparency and reducing waiting uncertainty.

Internship / Practical Experience

Software Engineering Intern (Academic/ Self- Learning)

Vizianagaram, Andhra Pradesh

- Practicing Python in FreeCodeCamp
- Practicing Data Structures and Algorithms using C HackerRank
- Building Academic and Personal projects to strengthen Frontend and Web Development Skills

Certifications

-
- Gained hands-on experience in C programming through Cisco Networking Academy
 - Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ.
 - Completed “Generative AI for All” by Infosys, strengthening my understanding of generative AI concepts and real-world applications across industries.
 - Completed “Quantum Fundamentals” by Wisser, gaining a foundational understanding of quantum computing concepts and their real-world implications.
 - Completed a Deloitte job simulation involving data analysis and forensic technology

Soft Skills

Problem Solving, Analytical Thinking, Communication Skills, Team Collaboration, Adaptability, Quick Learner

Extra-Curricular Activities

- Actively participate in hackathons focused on real-world problem solving and rapid prototyping
- Demonstrate teamwork, adaptability, and effective communication through collaborative activities
- Actively participating in photography clubs, developing creativity, visual storytelling, and teamwork skills.
